

PADPAK JR[®]

Compact, simple, portable, virtually maintenance-free and very affordable, the PadPak Jr[®] packaging system for low-volume applications brings all the benefits and features of PadPak[®] in-the-box packaging to the desktop.

For customers who have used traditional dunnage packaging due to volume or space limitations, PadPak Jr. is the answer for almost any application.

Its portable design means quick set-up; one PadPak Jr can be moved to various locations as needs dictate. And with tabletop and pedestal options, it offers true flexibility for each location.

You simply won't find a packing material that cushions and protects your products more effectively than PadPak[®]. No matter what you're shipping. From the heaviest product to the most sensitive part. Whether it's flammable, irregularly shaped, or electronically charged, we're the natural choice. In fact, all Ranpak products are recyclable, renewable and biodegradable.

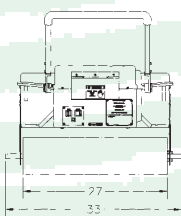

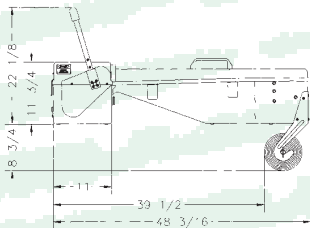

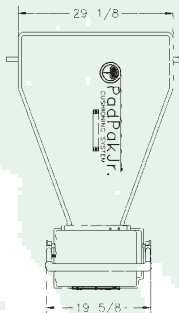

Size:	
Front	19-5/8 x 11 x 11-3/4
Paper Shaper	29-1/8 x 37-3/16 x 11-1/8
Weight:	Less than 110 lb.
Power:	120 VAC, 60Hz, 1.4 Amps
Feed Rate:	Approx. 12 in./sec.
Cut Method:	Manual lever
Controls:	Motor feed controlled by manual lever
Options:	Table top and pedestal

Simple electric feed/manual cut operation makes PadPak Jr simple to learn and easy to use. Ergonomically-friendly design makes it comfortable to operate in any configuration.

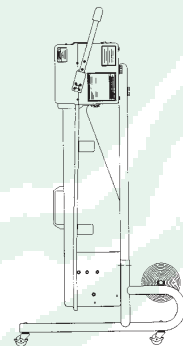

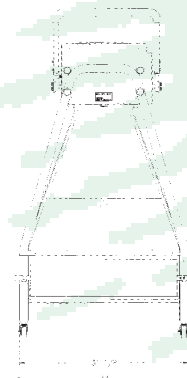

PadPak Jr — the portable, lightweight, revolutionary packaging system — is ideal for multiple packaging stations, mail rooms, retail stores, distribution centers, moving companies, packaging/mail franchise stores... anywhere the unique blocking & bracing, cushioning, wrapping and void fill characteristics of PadPak are needed.
