

# Mechanical Models for Transporting Drums

## Drum-Snatcher™

Gravity-Actuated Mechanical Single and Double Drum Movers for 55-Gallon Drums

The Drum Snatcher, available in single or double drum styles, is Valley Craft's most economical drum mover for 55-gallon drums. It is designed for those customers who have only limited drum-handling needs and should only be used on smooth transporting surfaces. Customers with heavy usage requirements or rough transporting surfaces should consider Model 6145 Auto Grip (see above), or one of our hydraulic models.

### Primary Functions:

- Moving
- Stacking
- Palletizing

### Additional Features:

- Drive-in fork tubes
- Safety chain secures grip to mast

### Ordering Information: Gravity Actuated Mechanical Drum Snatchers
