

Versa-Grip™ - Model 6138

Lift Truck-Powered Dual Function Drum Handler with General Purpose Jaws

The Lift Truck-Powered Versa-Grip Model 6138 features both hydraulic gripping and dumping capabilities. The rubber-lined general purpose jaws are designed to handle both steel drums and other rigid cylinders from 18" to 28" in diameter. Model 6138 requires a lift truck equipped with an auxiliary valve control and hydraulic quick couplers.

Primary Functions:

- 125° directional controlled dumping
- Moving
- Stacking
- Palletizing

Versa-Grip offers controlled dumping forward up to 125°

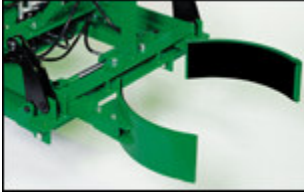

Additional Features:

- Hydraulic quick couplers
- Safety arm secures drum while tilting
- Drive-in fork tubes
- Safety chain secures grip to mast

Power on the Model 6138 is controlled by the auxiliary valve control on the lift truck. Driver pulls a cord to divert power from the tilting to the clamping mode.

Drums can be released in a horizontal position to facilitate horizontal stacking. Driver pulls rope to change to clamping mode after drum has been tilted to 90°.

Jaw Options

Standard Jaws for steel drums and cylinders 8-28 in. in diameter.

Giant Jaws for steel and fiber drums 18-28 in. in diameter.

Ordering Information: Lift Truck-Powered Versa-Grip

Model Number	Description	Color	Lifting Capacity*	Distance Between Fork Tubes	Distance Between Forks	Fork Tube Size	Jaw Size	Cylinder Diameter Range	Shipping Weight
6138	Lift Truck-Powered Versa-Grip w/General Purpose Jaws	OSHA Safety Green	2000 lbs.*	22.75"	23.75"	2x6x22"	6"x18"	18"-28"	342 lbs.
6133	Lift Truck-Powered Versa-Grip w/Giant Jaws	OSHA Safety Green	2000 lbs.*	22.75"	23.75"	2x6x22"	18"x18"	18"-28"	393 lbs.

*Dumping capacity of an open-top drum is limited by the strength and rigidity of the drum. It must be capable of retaining its cylindrical shape while dumping the load.

Versa-Grip™ - Model 6139

Self-Powered Dual Function Drum Handler with General Purpose Jaws

Designed primarily for handling steel drums of various sizes, the Self-Powered Versa-Grip™ features both hydraulic gripping and dumping capabilities, and can be used on almost any brand or style of lift truck because of its self-contained built-in 12-volt battery operated Power Pak (see below). The rubber-lined general purpose jaws can handle both steel drums and other rigid cylinders from 18" to 28" in diameter.

Primary Functions:

- 125° forward controlled dumping
- Moving
- Stacking
- Palletizing

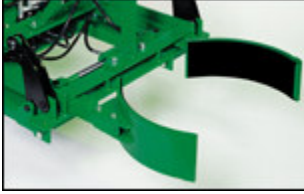

Additional Features:

- Safety arm secures drum while tilting
- Control box & cord (extends from 4 to 20 feet)
- Drive-in fork tubes
- Safety chain secures grip to mast
- [Completely self-contained 12-volt battery-operated Power Pak](#) (batteries not included)
- Built-in battery charger

Versa-Grip offers controlled dumping forward up to 125°

Jaw Options

Standard Jaws for steel drums and cylinders 8-28 in. in diameter.

Giant Jaws for steel and fiber drums 18-28 in. in diameter.
