

# BARREL HAWK Raptor

The ingenious Barrel Hawk™ employs a beak-style grab that is able to grasp virtually any kind of drum. The unique Raptor design allows the unit to straddle standard pallets and grab drums from the center, and makes loading and unloading from containment skids a safe and easy task. Raptors are equipped with 6" poly wheels for easy maneuverability.

- Hands free loading and unloading and unloading of drums
- Easily removes drums from containment skids or full pallets
- Glides over the top of pallets with ease
- Handles 85-gallon overpack drums

Model Number	Description	Load Capacity	Shipping Weight
8575	Raptor	800 lbs.	232 lbs.
